SUMMARY

Dedicated second-year Computer Science student with a passion for technology and software development. Proficient in languages such as C, C++, Python, Data STructures. Known for my problem-solving skills and collaborative nature, I am committed to leveraging my academic knowledge to contribute effectively in the field of computer science.

PROJECTS

Address Handbook System

The "Address Handbook in C++" is a software application designed to provide an efficient and user-friendly solution for managing contact information

Hotel Management System

The Hotel Management System program aims to provide a simple and efficient solution for managing hotel bookings, check-ins, and checkouts. The system is designed to allow users to book hotel rooms, checkout from rooms, display a list of booked hotels, and gracefully exit the system

Quiz Game

Quiz game in C is to develop a game that presents the player with multiple choice questions
